

LEAD - ACID BATTERY

PACIFIC MINING PARTS

Spec Sheet: **PMP 8D-1760**

Technical Information

The PMP 8D-1760 is a *heavy duty*, maintenance free battery designed to start your mobile equipment with a CCA of 1760, and is suitable for extreme service environments such as mining, construction, forestry, and large-scale earth moving.

Uses

- MINING
- EARTH MOVING
- HEAVY MACHINERY
- AGRICULTURAL INDUSTRY

Manufacturer Certifications

- ISO 9001
- ISO 14001
- ISO 45001
- ISO 50001

Features and Benefits

12 - month Warranty	Increased Vibration Resistance
Sealed 100% Maintenance-Free	Liquid-Gas Separator to Minimize Electrolyte Loss
Lead-Calcium Plates	Upgraded Terminals to Withstand Higher Temperatures

Technical Specification

Battery Type	8D - 1760
Capacity (@20hr rate)	230Ah
Reserve Capacity (RC)	481min
Overall Dimensions (mm)	L521 x W265 x H249
CCA (-18C)	1760A
Weight (kg)	57.9
